# Eigenschappen - Onderhoud - Garantie Baden en Thermae

## 1) Grondstof

Als basismateriaal voor de RIHO-baden en douchebakken wordt gegoten acrylaat gebruikt. Een hoogwaardig poriënvrij kunststofmateriaal, dat door en door is gekleurd en in glanzende uitvoering verkrijgbaar is. Bovendien worden alle RIHO-baden en douchebakken extra versterkt met een laag glasvezel polyester aan de onderkant.

## 2) Anti-slip

Acrylaat heeft een van nature stroef oppervlak, waardoor u meteen vaste voet aan de bodem heeft als u in het bad of in de douchebak stapt.

## 3) Warmte-opname

Acrylaat neemt vrijwel onmiddellijk de temperatuur van het water aan. Daardoor kunt u zich ontspannen in bad laten glijden, zonder dat u een koude schok staat te wachten.

## 4) Isolatie

Door het isolatievermogen van het materiaal wordt de warmte van het badwater langer vastgehouden. U hoeft uw bad niet steeds met warm water bij te vullen.

## 5) Geluiddemping

Acrylaat heeft een geluiddempende werking, waardoor het vullen van het bad of het gebruik van de douchebak veel minder lawaai veroorzaakt.

## 6) Onderhoud

Acrylaat heeft een poriënvrij oppervlak. Bacterievorming is daardoor uitgesloten. Bovendien krijgen de kalk-, vet en zeepresten geen gelegenheid zich aan de badwand te hechten. Het onderhoud kunt u daardoor tot een minimum beperken. Naspoelen met de handdouche, een vochtige doek of spons erover (eventueel met een niet-schurend schoonmaakmiddel) en klaar bent u.

## 7) Materiaal

Acrylaat is een slagvast materiaal. Krassen komen niet of nauwelijks voor. Eventueel toch ontstane krasjes kunnen met een zeer fijn waterproof schuurpapier (nr 2000) weer worden weggewerkt, waarna de krasjes eenvoudig met een autopolish gladgestreken kunnen worden. Ook een schroei-vlek, bijv. doordat u per ongeluk een sigaret op de badrand heeft laten liggen, kunt u op dezelfde manier als hierboven beschreven, verwijderen.

## 8) Whirlpoolsystemen en hun eigenschappen

- Halogeenspots voor badverlichting met nivoschakelaar zijn optioneel verkrijgbaar.
- RIHO Aero- en Hydropools (+combinaties) voldoen aan de eisen die door de nationale en internationale keuringsinstanties verplicht gesteld worden.
- Door de speciale constructie van het leidingsysteem van de RIHO Hydropools, blijft er na het leeglopen van het bad geen of een te verwaarlozen hoeveelheid restwater in het systeem achter.

## 9) Vormgeving en comfort

De vormgeving van alle RIHO-modellen kenmerkt zich door uitgeknipte ontwerpen, waarbij uw comfort tijdens het baden op de eerste plaats staat. Bovendien zijn de RIHO-baden extra diepe baden, hoewel ze door de speciale vormgeving nauwelijks meer badwater verbruiken dan standaardmodellen.

## 10) Garantie

Voor de goede constructie en de materialen van de door ons geleverde goederen staan wij in, met dien verstande dat door ons voor alle onderdelen, welke gedurende een termijn van drie jaar na levering door onvoldoende constructie en/of ondeugdelijke materialen defect raken, gratis nieuwe onderdelen zullen worden geleverd. De betrokken onderdelen moeten daartoe franco aan ons worden toegezonden. Demontage of montage van deze onderdelen is niet voor onze rekening.

- 1a Op Riho producten die vervaardigd zijn uit acryl is een garantie-termijn van 5 jaar van toepassing op kleur en vormvastheid, en 3 jaar op techniek en mechanische onderdelen.
- 1b Reiniging van Riho producten dient te geschieden met door Riho voorgeschreven middelen.
- 2 Gebreken ontstaan door normale slijtage, onoordeelkundige behandeling of onoordeelkundig of onjuist onderhoud, dan wel welke zich voordoen na wijzigingen of reparatie door of namens de opdrachtgever en/of koper zelf of door derden, vallen nimmer onder de garantie.
- 3 De garantie geldt slechts indien en voor zover de opdrachtgever en/of koper aan al zijn verplichtingen jegens ons volledig heeft voldaan.
- 4 Geen garantie wordt gegeven voor onderdelen, alles in de ruimste zin van het woord, welke niet door ons zijn geleverd c.q. zijn gemonteerd.
- 5 De garantie strekt zich in geen geval verder uit dan tot het gratis leveren van nieuwe onderdelen. Wij zijn nimmer aansprakelijk voor enige andere door de opdrachtgever en/of koper geleden schade, hoe ook genaamd.
- 6 Indien wij ter voldoening aan de garantieverplichting onderdelen vervangen, worden de vervangen onderdelen ons eigendom.
- 7 Indien door de opdrachtgever en/of koper is bedongen dat bepaalde materialen of onderdelen geleverd worden door met name genoemde fabrikanten of leveranciers, zijn wij niet gehouden tot een verdergaande verantwoordelijkheid en/of langere garantietermijn dan de fabrikant of leverancier van deze voorgeschreven onderdelen of materialen bereid is jegens ons te aanvaarden.
- 8 Reclames terzake van gebreken aan geleverde materialen en/of verrichte werkzaamheden moeten binnen 7 dagen nadat deze gebreken aan het licht zijn gekomen, schriftelijk bij ons worden ingediend.
- 9 Wij aanvaarden geen enkele aansprakelijkheid voor een door of namens de opdrachtgever en/of koper door derden uitgewerkt ontwerp, noch voor de eventueel bij dit ontwerp gegeven specificatie van materialen c.q. berekeningen.
- 10 Wij zijn nimmer verplicht tot vergoeding van middellijk of onmiddellijk geleden schade, hoe ook genaamd, ontstaan door gebreken aan geleverde goederen/materialen. Evenmin zijn wij aansprakelijk voor schade die door of tijdens de installatie van geleverde goederen aan eigendommen van de opdrachtgever/koper dan wel van derden wordt toegebracht.

Wij zijn nimmer verplicht tot vergoeding van bedrijfsschade of gevolgschade, hoe ook genaamd, door welke oorzaak ook ontstaan, daaronder begrepen de vertraging in de levering van de verkochte goederen en/of installatie.

De garantie van het Riho product komt te vervallen indien het product is gebruikt buiten het land van aankoop.

**Op showroommodellen zijn de garantievoorwaarden NIET van toepassing.**

#### 1) Matière première

L'acrylate moulé est utilisé comme matériel de base pour la fabrication des baignoires et receveurs RIHO. C'est également un matériel synthétique de qualité, non poreux, teinté dans la masse et disponible en version mate ou brillante. Le bas de tous les receveurs et baignoires RIHO est renforcé par une couche de polyester renforcée par des fibres de verre.

#### 2) Antidérapant

L'acrylate a une surface naturellement rugueuse, qui empêche votre pied de glisser dès que vous entrez dans la baignoire ou dans le tub.

#### 3) Absorption de chaleur

L'acrylate adapte presque instantanément la température de l'eau. Dès lors, vous pouvez vous laisser glisser dans la baignoire sans craindre le contact du froid.

#### 4) Isolation

Le pouvoir isolant du matériel permet de maintenir plus longtemps l'eau du bain à bonne température sans que vous ne soyez obligé d'ajouter de l'eau chaude.

#### 5) Insonorisation

L'acrylate a un effet insonorisant qui permet d'atténuer fortement le bruit lorsque vous remplissez la baignoire ou utilisez le receveur.

#### 6) Entretien

L'acrylate a une surface non poreuse qui exclut toute prolifération de bactéries. Il évite également l'incrustation du calcaire, de la graisse et du savon dans les parois, ce qui réduit considérablement l'entretien. Rincez à l'aide du pommeau, d'un chiffon humide ou d'une éponge (éventuellement à l'aide d'un détergent non abrasif) et le tour est joué.

#### 7) Nettoyage

Pour les systèmes whirlpools RIHO, vous pouvez utiliser les pastilles de nettoyage RIHO, avec lesquelles vous pourrez nettoyer et désinfecter le système toutes les 2 à 3 semaines en toute simplicité.

#### 8) Les systèmes whirlpools et leurs caractéristiques

- Toutes les installations de pompe RIHO sont pourvues d'une protection céramique de marche à sec.
- Les spots halogènes destinés à l'éclairage du bain sont dotés d'un interrupteur de niveau, et sont disponibles en option et en divers coloris.
- Les Aéropools et les Hydropools RIHO (et combinaisons) répondent aux exigences imposées par les instances de contrôle nationales et internationales obligatoires.
- La construction spécifique du système de canalisation des Hydropools et des Spypools RIHO empêche toute stagnation d'eau, ou seulement d'une quantité négligeable dans le système lorsque la baignoire est vidée.

#### 9) Forme et confort

La forme de tous les modèles RIHO se caractérise par une conception soignée qui vise avant tout votre confort d'utilisation. Les baignoires RIHO sont particulièrement profondes mais, grâce à leur forme particulière, elles ne consomment guère plus d'eau que les modèles standard.

#### 10) Garantie

Nous répondons de la bonne construction des matériaux, et des produits que nous livrons, étant entendu que nous remplacerons par des pièces neuves tous les composants qui, dans un délai de trois ans après la livraison, présenteraient une défectuosité en raison d'un défaut de réalisation et/ou de matériaux défectueux. Pour ce faire, les éléments concernés doivent nous être expédiés franco. Nous ne prenons pas en charge le démontage ou le montage de ces composants.

- 1a Les produits Riho réalisés en acrylique bénéficient d'une garantie de 5 ans sur la stabilité de la couleur et de la forme et 3 ans sur technique et parts mécanique.
- 1b Le nettoyage du matériel Riho doit être réalisé avec les produits prescrits par Riho.
- 2 Les défauts consécutifs à une usure normale, une utilisation incorrecte ou un mauvais entretien, ou qui surviennent après des modifications ou des réparations par le donneur d'ordre et/ou l'acheteur lui-même ou en son nom par des tiers, ne tombent en aucun cas sous l'application de la garantie.
- 3 La garantie est uniquement valable si et dans la mesure où le donneur d'ordre et/ou l'acheteur a entièrement satisfait à toutes ses obligations à notre égard.
- 4 Il ne sera donné aucune garantie pour les pièces et pour les éléments, dans le sens le plus large du terme, non livrés et, le cas échéant, non montés par nous.
- 5 La garantie ne s'étend en aucun cas au-delà de la fourniture gratuite de nouvelles pièces. Nous déclinons toute responsabilité pour tout autre préjudice, de quelque nature que ce soit, subi par le donneur d'ordre et/ou l'acheteur.
- 6 Si nous remplaçons une pièce pour satisfaire aux conditions de la garantie, la pièce remplacée devient notre propriété.
- 7 S'il est stipulé par le donneur d'ordre et/ou l'acheteur que certains matériaux et ou composants soient fournis par des fabricants et fournisseurs désignés spécifiquement, nous ne pouvons être liés à une responsabilité plus étendue et/ou des délais de garantie plus longs que celle et ceux que le fabricant des composants et matériaux prescrits est disposé à accepter à notre égard.
- 8 Toute réclamation relative à des manquements dans les matériaux fournis et/ou les travaux réalisés doit nous être communiquée par écrit dans un délai de 7 jours après l'apparition de ces manquements.
- 9 Nous déclinons toute responsabilité pour tout projet réalisé par le donneur d'ordre et/ou l'acheteur lui-même ou en son nom par des tiers, ni pour les spécifications de matériel et de calculs fournies éventuellement dans le cadre de ce projet.
- 10 Nous ne sommes en aucun cas liés au dédommagement de préjudices directs ou indirects, de quelque nature que ce soit, causés par des défectuosités dans les produits/matériaux fournis. Nous déclinons également toute responsabilité en cas de dommages aux propriétés du donneur d'ordre et/ou du client ou encore de tiers, causés par ou pendant l'installation des produits fournis.

Nous ne sommes aucunement tenus de dédommager les pertes d'exploitation ou dommages indirects, de quelque nature que ce soit, quelle que soit leur origine, en ce compris les retards dans la fourniture des produits et/ou de l'installation vendus.

La garantie des produits Riho expire si le produit est utilisé en dehors du pays d'achat.

**Sur les modèles d'exposition les conditions de garantie ne sont PAS applicables.**

# Grondstoffen/Matériaux - Garanties Stoom/Vapeur

- 1) Grondstof: Als basismateriaal voor de Verona-Nevada-Majestic-Primo stoom/douche cabines wordt anti bacterieel acrylaat/abs-plaat materiaal gebruikt. Het hoogwaardig porienvrij kunststofmateriaal is in glanzende uitvoering leverbaar. Bovendien worden alle Verona-tech stoom/douche cabines extra versterkt met een laag glasvezel polyester aan de achterzijde. De Memphis/Madison stoom/douche cabines hebben een mineraal composiet douchebak en dak. RIHO gehard glas is voorzien van SGG Aquacontrol® Showers wat zorgt voor een vuilafstotende werking; deze oppervlakte behandeling maakt het 'Easy to clean'.
- 2) Oppervlakte: De acrylaat toplaag van de Verona-tech stoom/douche cabine heeft een van nature stroef oppervlak, waardoor u meteen vaste voet aan de bodem heeft als u in de cabine stapt.
- 3) Warmte-opname: De acrylaat toplaag neemt vrijwel onmiddellijk de temperatuur van het water aan. Daardoor kunt u zich sneller ontspannen.
- 4) Isolatie: Door het isolatievermogen van acrylaat wordt de warmte van het water langer vastgehouden.

Voor de goede constructie en de materialen van de door ons geleverde goederen staan wij in, met dien verstande dat door ons voor alle onderdelen, welke gedurende een termijn van drie jaar na levering door onvoldoende constructie en/of ondeugdelijke materialen defect raken, gratis nieuwe onderdelen zullen worden geleverd. - 13 Op showroommodellen zijn de garantievoorwaarden NIET van toepassing

- 1) Matériaux : Le matériau de base pour les cabines à vapeur/de douche Verona-Nevada-Majestic-Primo est l'acrylique/ABS antibactérien. Ce matériau plastique non poreux de haute qualité est disponible en version brillante. En outre, toutes les cabines à vapeur/de douche Verona-tech sont renforcées à l'arrière à l'aide d'une couche de polyester fibre de verre. Les cabines à vapeur/de douche Memphis/Madison sont fournies avec un bac de douche et un plafond en minéraux composites. Le verre trempé RIHO est conçu selon le procédé SGG Aquacontrol® Showers, rendant le verre résistant aux salissures ; ce traitement du verre permet ainsi un nettoyage facile.
- 2) Surface : La couche supérieure acrylique des cabines à vapeur/de douche Verona-tech est naturellement rugueuse, permettant de prendre pied immédiatement lorsque vous entrez dans la cabine.
- 3) Absorption de la chaleur : La couche supérieure acrylique s'adapte presque immédiatement à la température de l'eau. Vous pouvez ainsi vous détendre plus rapidement.
- 4) Isolation : Le pouvoir isolant de l'acrylique permet de conserver plus longtemps la chaleur de l'eau.
